

EURO-C 2026

March 9-12, 2026
Seefeld in Tirol, Austria

Invitation for Sponsorship & Exhibition

EURO-C 2026 continues the series of conferences on **computational methods and numerical models for the analysis of concrete and concrete structures**. EURO-C 2026 will take place on March 9-12, 2026 in Seefeld in Tirol, Austria.

Based upon the success of the first conference and its subsequent amalgamation with the Delft Concrete Mechanics Colloquia, the series of EURO-C conferences continued with venues always located in the Austrian Alps, such as in Zell am See (1990), Innsbruck (1994), Bad Gastein (1998), St. Johann im Pongau (2003), Mayrhofen in Zillertal (2006), Rohrmoos/ Schladming (2010), St. Anton am Arlberg (2014), Bad Hofgastein (2018), and Vienna (2022).

Keeping the spirit of this long-standing tradition, EURO-C 2026 is aiming to bring together researchers and engineers involved in computational modelling of cementitious materials and the model-based design of concrete structures to review and discuss research advancements and to assess the applicability and robustness of methods and models for the analysis and design of concrete, fibre-reinforced and prestressed concrete structures, as well as masonry structures in engineering practice. Recent developments include methods of machine learning, novel discretisation methods, probabilistic models, and consideration of micro-structural aspects in multi-scale settings. Overall computational robustness of numerical predictions and mathematical rigour have further increased, implying the need for validation and respective experimental programs.

Distinguished colleagues have agreed to deliver **plenary lectures**, comprising Zdenek Bazant (Northwestern University, USA), Beatrice Belletti (University of Parma, Italy), Gianluca Cusatis (Northwestern University, USA), Max Hendriks (TU Delft, Netherlands), and Günter Hofstetter (University of Innsbruck, Austria).

The scientific programme of EURO-C 2026 will comprise about **110 presentations**.

Conference details are available on the webpage at <https://www.euro-c.org/>.

The exhibition is an integral part of the conference, providing attendees with the opportunity to update themselves on the latest technical developments. Furthermore, it presents our **industry partners with the chance to interact with a great number of key decision makers and potential new clients**. The exhibition will be combined with coffee and lunch break areas, thus ensuring maximum exposure and visibility for your company as well as a flow of visitors to the company booths throughout the entire conference.

Your support is essential for the success and attractiveness of the conference and will be highly appreciated by the organizers. We would be pleased to welcome you at EURO-C 2026!

Please submit the application form to secure your sponsorship and exhibitor space as soon as possible. Please see below details of the different sponsorship and exhibition packages:

EURO-C 2026 Sponsorship & Exhibition Opportunities	Exhibitor	Sponsor
Requested amount	€ 1,500	€ 500
Exhibition Space Equipment	1 table 2 chairs	X
Included registration fee	1	X
Company logo at • Conference Webpage • Printed Programme • Posters, banners, etc	✓	✓
Product & company logo/advert • website – exhibition/sponsoring • Programme [printed]	YES 1 page	YES ½ page
Company/product leaflet in delegate bag (A4, max. 50 g)	included	€ 200

Additional option: Inclusion of company/product leaflets in delegate bags (A4): € 300

For further information or for discussing a customized sponsoring option that meets your specific marketing needs, please contact the conference secretary Martina Poell-Baumgartner, E euro-c@tuwien.ac.at, T+43 1 58801 20211.
